

Colleagues,

Response to latest letter from Management

The latest letter to Drivers over a further extension and implementation to DOO(P) alludes to the fact that this has been done in agreement with ASLEF and its H&S Reps.

This is not the case. We have no agreed protocol for these test trips, so therefore, have never agreed with GTR on the extension of DOO (P) routes.

In fact, our H&S Reps have identified some serious safety concerns whilst observing GTR carrying out test trips.

Whilst we work to rectify these issues please work as instructed by GTR.
