

We have been advised by Thompsons Solicitors that they are now able to proceed with personal injury claims for non work related accidents for your family and close friends.

There are 3 very good reasons for this change.

1 The person making the claim through Thompsons is more likely to win an increased amount over what you may achieve going with your insurance companies solicitor.

2 Any costs won as a result of the claim are used to cross subsidise the employment law arm of Thompsons because you rarely win costs at an employment tribunal

3 If Thompsons take your case it costs you nothing.
